OFF-ROAD CHASSIS

WE BUILD OUR OWN!

We are one of the few manufacturers who build their own chassis. The name NORTHWOOD is known throughout the industry for quality chassis and we certify ours through an independent testing lab.

Just returned from a round trip on the Alaska Highway with our 2008 Desert Fox 24AS. Everyone who sees it continues to admire it, and we couldn't be happier with it. You guys make a great product. The solar system is especially useful here in the "land of the midnight sun."
All of our friends who have other brands of toy haulers are jealous. Mark O.

My husband and I knew what we needed and wanted in a trailer, and the Desert Fox hit every mark. We knew that Northwood trailers came with the level of craftsmanship and attention to detail we were looking for- not only with aesthetics but also in optional features, in order to get us a trailer that could keep up with our open-road travel lifestyle for year-round adventures. We actually ordered our trailer sight-unseen and had it shipped to us, because we were confident after seeing other Northwood trailers that it would meet our expectations...

...and after the first 6 months of ownership and over 3500 miles, our Desert Fox 21SW has not disappointed us! - Steven and Claudia M. with Parker the dog.

Love our new DF 27FS
Thanks,
Jackie J.

This is our second summer enjoying our DFox. This picture was taken in northern Arizona on a beautiful summer evening. Thank you for making such a great product! Phil and Nancy C.Yuma, AZ

With many years of camping over the years, our 2013 27FS Desert Fox is the best! We love getting out on the trails with our quads and Rzr and have the trusted comfort of "home". Thank you for making such an amazing RV and being so great to work with!
Jack and Laurie

We are loving our 2020 Desert Fox 21SW. We can fit our Honda Talon 1000X inside!
