# What is ABSOLUTE NORTHWOOD?

Our Commitment to:  
**QUALITY  
 STRENGTH  
 DURABILITY**

When you purchase an Arctic Fox, you are investing in the best quality materials, construction and craftsmanship. That is why the resale value in an Arctic Fox remains higher, and your investment retains its value longer. If you ever decide to trade in your Fox, you will get top dollar. That is why you don't see many used Arctic Foxes on the market, folks buy them up as quickly as they become available because Arctic Fox has a reputation for durability and longevity.

## NORTHWOOD BUILT CERTIFIED CHASSIS

### WE BUILD OUR OWN HEAVY DUTY STRUCTURAL STEEL OFF-ROAD CHASSIS

We are one of the few manufacturers that build their own chassis. The name NORTHWOOD is known throughout the industry for quality chassis and we certify ours through an independent testing laboratory for quality assurance.

## THICK WALL TUBULAR ALLUMINUM SUPERSTRUCTURE

.060"-.125" (Up to 1/8" Thick) heavy gauge thick wall aluminum tubing in our travel trailers & fifth wheels.

### SOLID CORE ANCHOR BLOCKING AND CONTINUOUS WELDS

Now that's an **ABSOLUTE** Quality Superstructure!

## BONDED ROOF TRUSS/ FULL WALK-ON ROOF

BONDED ROOF TRUSS SYSTEM WITH CATHEDRAL ARCHED CEILING

UP TO 4" OF EXTRA HEADROOM

The Northwood Bonded Roof Truss System bonds all the components of the roof structure together as a unit. The ceiling, trusses and roof plywood are unified in a bonded system that gives superior load distribution and maximum load bearing capacity.

Top quality exterior grade plywood panels are bonded to the trusses and a thick one piece roofing membrane is then applied for a durable, long lasting seal to protect you and your coach from the elements.

### Northwood's Bow Trusses

5-1/2 inch center height gives the roof plenty of runoff slope to eliminate standing water.

## CUSTOM BUILT FACE FRAME CABINETS

CABINERY w/SOLID WOOD DOORS,  
BUILT USING RESIDENTIAL FACE FRAME  
CONSTRUCTION METHODS &  
INTEGRATED WITH THE WALL & CEILING.

## BEAUTIFUL & STRONG

Solid Wood  
cabinet doors ensure  
lasting beauty and  
rugged strength.

Face Frame  
construction gives our  
cabinets 'high end'  
residential quality.

Structurally integrated  
cabinetry is  
anchored to the  
walls and ceiling  
structure of our  
coaches making both  
the RV and the  
cabinets stronger.

## A TRUE FOUR SEASON ALL CONDITIONS UNIT

HEATED ENCLOSED HOLDING TANKS  
& DUMP VALVES DESIGNED FOR COLD  
NORTHERN & HOT SOUTHERN CLIMATES

Northwood builds true 4-Season Coaches. Our fully insulated holding tank area circulates warm air around the suspended tanks providing the best protection from freezing. Our knife valves are also enclosed to keep them from freezing.

Our 4-Season coaches are insulated with various types of residential quality Rigid Foam, Batten & Reflective Foil insulation to protect you from the winter cold & summer heat.

Dave and Kimberly

Photo was taken a few days ago of our 2015 Arctic Fox crossing the Arctic Circle on the Dempster Highway that leads to Inuvik in the Northwest Territories, Canada. This is the beginning of a trip that will start at the Arctic Ocean in June and also take us to both the Pacific and Atlantic Oceans this summer and fall.

Unfortunately the truck and trailer are quite dirty, but show a bit of a testament of the challenge this trip and the Dempster highway was for the unit. No issues with the unit other than the layers of dust and mud from the final stretch of 735 kilometers of mountain gravel road.
